

INGEST

INnovations to **Ge**nerate **Est**imates
of children's **Soil/dust in**Take

ARE YOU THE PARENT OR GUARDIAN OF A CHILD UNDER 6 YEARS OLD?

If YES, you may be eligible to participate in a study about how children interact with their environment.

Why is this study being done?

The study will help researchers estimate how much contact children have with soil and dust, and could help develop better protections for children's health.

What is it like to be in this study?

Depending on your availability and the age of your child, you could be asked to fill out surveys on your smartphone, the study team could film a short video of your child playing, or they could collect samples of food, formula, diapers, soil, and dust from your home.

What do I get for participating in this study?

You could earn gift cards worth \$50 or more, depending on your participation.
